Källa: Direktägda fonder i fondbolag eller via ISK. Egna beräkningar. Se Appendix B för detaljer.

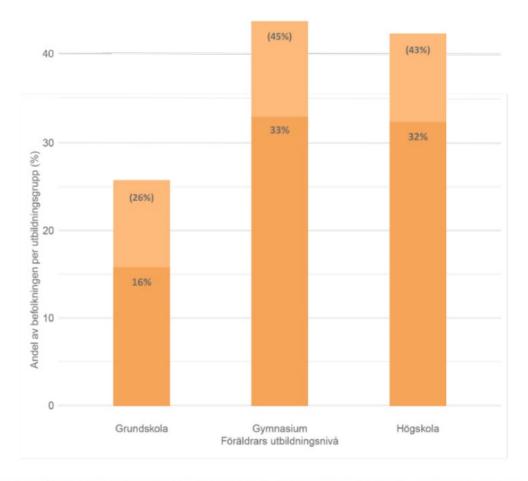

Average and median fund savings, females and men

Källa: Egna beräkningar av direktägande av fonder i fondbolag eller via ISK. Alla belopp omräknade till 2021 års prisnivå.
Se Appendix B för detaljer.

Children's direct ownership of funds divided by parents' level of education in 2020 (2015).

Källa: Direktägda fonder i fondbolag eller via ISK. Egna beräkningar. Se Appendix B för detaljer.

Policy and research questions

- How to increase participation amongst people with low education and immigrants?
- Childrens savings are long term and can be expected to be successful – how can they be facilitated?
- What hinders people with low ecucation to participate in financial savings?
- How can financial litteracy be taught to low educated?
- Do informed investors believe ESG considerations to increase or decrease return?
- Can household identify sustainable investments?
- Would households be ready to abstain from return due to ESG considerations if necessary?
- Have households ESG preferenses shifted lately and why?
